

LUIS DAVID IBARRA

FULL STACK DEVELOPER · SYSTEMS ENGINEER

luisdavidibarraalmario@gmail.com

github.com/zoiket00 · linkedin.com/in/zoiket00

Cartagena, Colombia · Remote — Global

Full Stack Developer & Systems Engineer — "junior in title, senior in mindset." I ship real products: a commercial Windows optimizer on sale (342+ unit tests, Clean Architecture) and systems delivered to real clients. Strong in React/TypeScript, Node, Python and C#/.NET, with a focus on clean code, architecture that scales and security from day one. Seeking my first formal developer role — LATAM & US remote.

EXPERIENCE

Developer — Professional Internship

Jan - Jun 2026

Fundación Juan Felipe Gómez Escobar (Juanfe) · Cartagena

- Built & delivered **CIDI Asistencia 2026**, a digital attendance-control system for the foundation's programs.
- Node/Express API on Supabase (PostgreSQL), JWT auth, role-based access and a Chart.js analytics dashboard.

Creator — PC Optimiz Pro X (Commercial product)

2026 · Live

Solo product · sold on Gumroad

- Windows optimizer in C# / .NET 8 / WPF with Clean Architecture — 24 modules, 342+ unit tests.
- HMAC-SHA256 PRO/Free licensing system; safety-first design so no destructive op runs by accident.

SELECTED PROJECTS

Aprender Para Emprender (APE)

2026

Multi-tenant SaaS monorepo (Turborepo) — Next.js web + Expo mobile sharing logic, on Supabase.

FIORE MAESTRO

2026

Personal multi-LLM AI agent — Python 3.13 / FastAPI, Claude API, ChromaDB, Redis, Docker + CI/CD.

DevForge · AccessGuardian

2025-26

Next.js + Prisma services platform; and an n8n automation auditing access controls (Slack/Docs reporting).
